## Bryan Unanimous Choice of Prohi Party

### "DRYS" NOMINATE GREAT COMMONER DESPITE REFUSAL

Nomination by Acclamation Came After It Was Found He Had Wired Refusal.

### NEBRASKAN'S BROTHER DRAWS MEET'S ANGER

### Secret Conferences to Prevent the Nomination Charged—Permanent Officers Named.

Lincoln, Neb., July 21.—William Jennings Bryan was nominated by acclamation as the prohibition party's presidential nominee at the national convention today. The nomination came after it was found that he had telegraphed friends here that he "could not accept."

In naming Mr. Bryan, the convention went into a recess until Friday.

The nomination came after a stampede of the delegates, which was started by the resolution of W. G. Calderwood, of Minnesota, "tendering Mr. Bryan the leadership and asking him to reply promptly to the convention whether he would accept."

Attempts to table this resolution failed, resulting in an hour's recess, during which its opponents, led by Clinton N. Howard, of New York, urged Charles Bryan, brother of the nominee, to make public communications as was said to have concerning Mr. Bryan's attitude.

This brought out the fact that a proposed stampede plan for which became known yesterday, had resulted in Mr. Howard sending a telegram to Mr. Bryan asking if he would accept the nomination, and that the Nebraska had replied, saying he would decline. Speakers criticized Mr. Howard for what was termed his "treasonable attitude" in not making public the correspondence sooner when it was generally known this morning that he had heard from Mr. Bryan.

**Bryan's Telegram.**  
"Prohibition Convention,"  
"Lincoln, Neb."

"I appreciate your confidence in me. Please see my brother, C. W. Bryan. He will fully explain why acceptance is impossible."

Charles Bryan sent a letter to the convention after it reconvened, urging that it reject the resolution and saying that Mr. Bryan's friends would oppose his acceptance. The gist of it follows:

"Friends of Mr. Bryan and the cause of prohibition will discourage such action." The letter was addressed to Mr. Howard. He read it to the convention.

Speakers then charged that secret conferences between delegates and Charles Bryan had been held in the last twenty-four hours with the apparent object of preventing Mr. Bryan's nomination on the ground that he did not want to be named.

**Delegates Angered.**  
The fact that these conferences had not been made public seemed to anger many delegates and speech after speech favoring the Calderwood resolution followed until it was adopted with only a few dissenting votes out of the more than 200 delegates present.

This apparently was only the spark of the fire, however, for delegates clamored to the floor, each urging that Bryan actually be nominated.

Miss Marie Brehm, of California, first woman to be elected permanent chairman of a national political convention, relinquished the chair and placed Mr. Bryan in nomination.

The delegates immediately went up with a parade and shouting and whooping. After fifteen minutes they finally realized that they had not yet actually nominated Mr. Bryan and proceeded to make him their nominee by acclamation.

Tired and worn from the hot all-day session and the previous demonstration, they gave only a few seconds applause when the nomination actually was made. The nomination was seconded by Nebraska, Florida, Missouri, Illinois, California, Wisconsin and Ohio.

### Year's Normal Precipitation Nearly Reached

If Rainfall for July Is Exceeded During the Next Five Months the Normal Will Be Surpassed.

If the weather man wants Atlanta to be absolutely normal for the year 1920—as to rainfall—he will let it rain during the rest of the year only just exactly as much as it had rained in the month of July. Until noon Wednesday, that sounds involved, and it's not a frame-up. Listen to the explanation:

An average year's rainfall for Atlanta is 49.36 inches. So far this year it has already rained 42.47 inches. During the first twenty-one days of July it has rained 5.89 inches. Add your 5.89 to your 42.47 and you get your 48.36—simple! The weather man didn't know all that when he gave out the figures. It takes a mathematical reporter to figure all those things, but you're welcome to it.

If the year had started out in January, and on the first day resolved to be normal, and hadn't fallen from grace at all, the rainfall so far wouldn't have been but 29.07. But that wasn't the case, and Wednesday afternoon, the weather records were burdened with an excess of 14.50 inches of perfectly good rainfall they didn't have any use for at present. The normal for July is 4.73 inches and it has already rained 5.89 worth, with nine days to go.

The biggest excess rainfall for any month of the current year happened during March, when it rained to the amount of 10.95 inches. It was a record. Through July has been a most precipitous month. It is scarcely possible that it will attain the record of March.

The region around Rome has been the most rainy of late during the month of July with a total precipitation of 8.44 inches. The following are the totals for the month of July: Tallapoosa, 6.61 inches; Atlanta, 5.89 inches; Augusta, 4.48 inches; Columbus, 2.76 inches; Newnan, 2.74 inches; Thomasville, 1.32 inches.

### ALLEGED EVADER OF DRAFT TAKEN

### Younger Half Brother of Grover Cleveland Bergdoll Surrenders at Governor's Island.

New York, July 21.—While Lieutenant Colonel E. H. Hunt, retired, former commanding officer of the United States disciplinary battalion, today for alleged neglect of duty in connection with the escape of Grover Cleveland Bergdoll, wealthy draft dodger, the convicted deserter's half brother, Edwin E. Bergdoll, was taken into custody here at the headquarters at Governor's Island and gave himself up after having been sought for more than two years on a similar charge.

With Bergdoll at the time of the surrender, which was wholly unexpected, was James Romig, of Philadelphia, and another half brother, Charles Romig, friend of the Bergdolls, is under indictment with Mrs. Bergdoll in Philadelphia of Grover Cleveland Bergdoll, Grover's half brother, who was released from Governor's Island to go to Maryland in search of \$150,000 he claimed to have buried in the mountains there.

**In Castle William.**  
Immediately after his surrender, Edwin Bergdoll was lodged in Castle William, the prison occupied a few months ago by his brother, Charles. He was not to be released until the fifty-eighth article of war will be preferred against him. He announced he would not resist court-martial and would defend himself with military counsel. Neither Romig nor Braun would say where they had met Bergdoll, although they admitted having accompanied him here from Philadelphia.

The defense of Edwin Bergdoll is expected to be based upon the fact that he had been released from the draft and, consequently, could not be classed as a deserter. Grover Cleveland Bergdoll's defense also attempted to show that he had never been inducted into the military and was, therefore, not liable to military law, or answerable to the desertion charges.

**Not Recognized.**  
The trip from Philadelphia was made without incident, according to the government. The three gave their names at the government. On the R. R. where the train was stopped, they passed and later telephoned information of the party's arrival to the fort.

At the outset of the court-martial of Colonel Hunt, the prosecution announced that no attempt would be made to prove collusion by the accused officer with those who are alleged to have conspired to effect Grover's escape. Colonel Hunt is charged with neglect of duty in permitting Bergdoll to leave the prison under the sole guard of non-commissioned officers.

### DEMOCRATS NAME PARTY CAMPAIGN COMMITTEE TODAY

Body's Personnel Tentatively Fixed at Fifteen. Democratic Announcement After Day's Conference.

### NOTIFICATION DATES PRACTICALLY SETTLED

### Cox Holds Conferences With Leaders of Several States—Party Nominees to Stump East and West.

Columbus, Ohio, July 21.—Completion of campaign plans today engrossed Governor Cox, the democratic presidential nominee; George White, the new national committee chairman, and other leaders remaining over from yesterday's convocation of democrats. While the hotel lobbies and other public places crowded with republicans en route to Marion for their presidential notification ceremonies, the democratic leaders worked all day in Governor Cox's office and hotel conference rooms.

Announcement of the special democratic campaign committee was planned for tomorrow. Chairman White said its personnel had been fixed tentatively at fifteen, distributed over the country, and with women represented. Delay in making selection was caused by necessary consultations with, and approval from state democratic organizations. Governor Cox, who said he understood Mr. White would be an official chairman of the special committee, conferred on its personnel with the chief men and E. H. Moore, the governor's late manager.

### Notification Dates.

Notification dates for Governor Cox and Franklin D. Roosevelt, the presidential nominees, were tentatively settled for August 7 and 9, respectively, and it was announced that both candidates would start almost immediately thereafter on speaking tours, Governor Cox in the central and eastern states, and Mr. Roosevelt in the west.

Location of campaign headquarters also was among organization details considered. Governor Cox said he had heard only New York, Chicago and San Francisco discussed for headquarters. With preliminary organization affairs in hand, Chairman White planned to spend tomorrow at Marietta, Ohio, his home, and then a few days with his family, which is summering at Edgartown, Mass. Next Wednesday, he planned to meet Senator S. Cummins, former chairman, at New York headquarters, spend the following day at Washington headquarters, and return here.

### Political Surveys.

Political surveys of the states were made today by Governor Cox with state leaders. He discussed the Maine situation in detail with Mrs. G. M. Pattagall, that state's national committeewoman.

"She called attention to the fact," said Governor Cox, "that the republican by only 5,000 in 1918, when there was a strong republican trend."

The Massachusetts field was discussed by the governor with Edward W. Quinn, the Bay State's national committeeman, who has reported conditions good.

To inquire into the Kentucky situation, Governor Cox today telegraphed Senator Beckham, of Kentucky, to come here soon for consultation.

### Women's Activities.

Women's activities in the campaign were gone over by the governor with Mrs. George Haas, chairman of the women's bureau of the national committee. She told of plans to put one hundred democratic women speakers in the field and Governor Cox said the national committee would co-operate in "an aggressive campaign for the female vote."

### Soldiers Plan For Club House In Heart of City

With 7,500 Soldiers Stationed Here, Not One Place Is Devoted to Their Recreation.

Atlanta, with 7,500 soldiers permanently quartered in the camps here has fought to retain, and with hundreds of transient members of the American army passing through the city daily, has not a single place devoted to their entertainment, relaxation or recreation, according to expressions of officers of local camps Wednesday.

The situation has grown so acute, it was said that the personnel of Camp Gordon, where 3,000 members of the "Fighting Fifth" division are stationed, are developing plans to raise enough by subscriptions among themselves to rent a suitable club house in the city, fit it with recreational conveniences and throw it open to all soldiers and ex-servicemen without appeal to the people of Atlanta.

It is also declared that Atlanta's situation is hurting the cause of recruiting in the southeast, of which district the city is the center in that activity. Lieutenant Colonel Paul O. Franson, educational and recreational officer at Camp Gordon, in discussing the lack of facilities for entertainment of enlisted men from the cantonment of the city, said there was no tendency to blame the people of the city, but that the army authorities themselves were being forced to take some action to provide wholesome entertainment for the thousands of men passing through their brief leaves to the city.

### Younger Men Enlisting.

The present army is recruiting a large number of men who are younger than the old line regulars, he said. And it is no longer the case that the army is getting men who are older and more experienced. It is getting men who are younger and more inexperienced. It is getting men who are younger and more inexperienced. It is getting men who are younger and more inexperienced.

### Resolute Hopes Lead.

Resolute had taken the lead early in her favorite 15-mile race to windward, and rounding the stake with about a quarter of the mile, she slipped swiftly down the wind with spinnaker and balloon jib tapers billowing superbly.

But Shamrock IV, with her greater speed of canvas, would not be denied, and slowly, but steadily, she came about and, with little more than a mile to go, her bowsprit reached, then slowly began to creep past the defender's stern.

Inch by inch, as the spectators watched breathlessly, Shamrock IV moved up and up. A mile from the stake, they were running neck and neck, and the finish was a white-knuckled struggle.

They appeared so close together from the press boats that it seemed as if a man might have jumped from challenger to defender. Actually, the distance was several boat lengths.

Shamrock IV kept up the steady crawl ahead until the half-mile mark from the line she was nearly a full boat length ahead.

Then Resolute caught a tiny extra puff of wind from somewhere, and straining like a thoroughbred under the lash, crept up, slowly, almost imperceptibly. She had got her bow about even with Shamrock's towering mast when a puff of steam from the committee boat's whistle registered Shamrock's finish.

The little fleet of spectator craft, although smaller by far than that which had gone out to previous races, burst into a veritable bedlam of shrieking whistles and sirens as the contenders swept over the line and brought their spinnakers and balloons fluttering down.

**Adams in Weather Berth.**  
But the finish did not provide all the thrills of the race. Shamrock IV, jockeying for position, seemed to have gotten the advantage at the start, and started on a starboard tack in the weather berth. Captain Adams, of Resolute, offered little opposition, electing to wait for the port tack, which came within a few minutes.

Here he took the windward berth and pointed Resolute high up into the wind. Captain Burton turned Shamrock IV's nose further in toward the Jersey shore and the two boats, traveling on diverging paths, soon were nearly a half mile apart.

Superficially, Shamrock IV appeared to have the advantage. But finally, when Shamrock tackled, about two miles off the Jersey highlands, Captain Adams' strategy was proved. He held Resolute on her course and the yachts began to converge. It was a question which would have the weather berth when they met, but Resolute gained it by a scant 108 yards.

She caused an exciting series of sharp tacks, in which Shamrock IV tried to cross Resolute's bow. The nimble yachts were like playful swallows, darting first to port, then to starboard.

Defender and Challenger, in Spanking Breeze, Make Record by Completing Course in Same Time.

### RESUME RACES FRIDAY AFTER DRYDOCK TODAY

### American, Boat First to Outer Mark, But Shamrock Caught and Passed Her Near Finish Line.

Sandy Hook, N. J., July 21.—Resolute, defender of the American's yachting cup, came back today after two straight defeats, and won magnificently over the British challenger, Shamrock IV.

Shamrock finished a scant half boat length ahead, with a lead of 19 seconds, but as she had gained precisely that advantage at the start, the race was—magnificently—dead heat in yachting events—a dead heat over the thirty-mile course. Resolute won by the amount of her handicap, seven minutes and one second. The fourth race of the series will be started Friday.

Veteran yachtsmen who followed the trim craft through the four hours, three minutes and six seconds of racing time, thought back over many years of racing without being able to conjure up a picture that could compare with today's spectacle. It was a real yacht race, a real test of the skill of the men and the power of the boats.

Resolute had taken the lead early in her favorite 15-mile race to windward, and rounding the stake with about a quarter of the mile, she slipped swiftly down the wind with spinnaker and balloon jib tapers billowing superbly.

### Giant Dirigible Over Yacht Race Falls 3,000 Feet

Great Naval Blimp Falls Like Wounded Bird After Ten-Mile Race With Death Shoreward.

Naval Air Station, Rockaway, N. Y., July 21.—(By the Associated Press.)—Disaster overtook the naval blimp dirigible C-10 today just after she had flashed out a radio telephone report that the racing yachts Shamrock IV, and Resolute were off on their third race.

The great gas bag with eight men in her, including three reporters, was hovering a thousand feet above Ambrose lighthouse. This morning she was a wreck on Barren Island in Jamaica Bay ten miles away. She had fallen into the bay like a shot bird after a frantic race shoreward with the nose of her envelope collapsing as hydrogen gas, escaped from rents in the top of the bag.

In the battle to reach the landing field after she discovered the alrship's plight, Lieutenant A. W. Evans, her commander, had forced her 3,000 feet into the air by the sheer power of her twin engines. But as the dirigible moved away from Barren Island in Jamaica Bay ten miles away, she had fallen into the bay like a shot bird after a frantic race shoreward with the nose of her envelope collapsing as hydrogen gas, escaped from rents in the top of the bag.

Shifting its course toward Jamaica Bay beyond, Evans drove the balloon with elevators, slanting clear back to lift her. Farther and farther down came the ship's head, and less than two miles away she drove into the water nose first and a few minutes later floated gently ashore where her passengers and crew clambered out, wet but without a scratch to show for the 3,000 feet drop.

Every day watched the night races every day with moving picture men and reporters in the car, and from her has been sent a running report of each race. Today she was hailed out of the shed at noon and sent to the water for her flight out to the start.

In the car, each of the four cockpits held two persons. The ship

### MUNICIPAL LEAGUE BILLS FAVOR B-10 TO 7 NOTE

Measures Intended to Lead to State and City Ownership of Water Power and Other Utilities.

### OPPOSITION VOICED BY HARRY ATKINSON

### Judge Covington Alludes in Sarcastic Vein to Atkinson's Return From Vacation to "Save the State."

After spending the entire afternoon in listening to a spirited and at times almost personal discussion of the merits of two bills known as the Municipal League bills, the house committee on amendments to the constitution went into executive session and promptly decided by a vote of 10 to 7 to report both bills favorably.

The bills, which are companion bills modeled on Ontario legislation, are intended to lead to state and municipal ownership of water powers and other public utilities in Georgia. The same seven names are authors on both measures. They are: Representatives Covington, of Colquitt; Alfriend, of Baldwin; Williams, of Worth; Stewart, of Atkinson; Jackson, of Jones; Anderson, of Jenkins, and Hollingsworth, of Screven.

It will be noted that four of those whose names appear on the bills, Covington, of Colquitt; Williams, of Worth; Stewart, of Atkinson, and Jackson, of Jones, are members of the committee on constitutional amendments. They were all present Wednesday afternoon to vote for the bills.

### Provisions of Bills.

The first bill seeks to amend the constitution by empowering municipalities to create debts for the maintenance and operation of water powers and public utilities in excess of the limit of 7 per cent of their assessed value by the levy of a tax on the water power and public utilities. The second bill provides for the creation of a hydro-electric commission, which shall have full charge of the water-power developments of the state and which may acquire, construct, maintain and operate such water powers.

Marion E. Jackson opened the presentation of the case for the Municipal League. He declared that in every state where municipalities had been authorized by law to develop their own electric current, the rates had been brought down. He charged that the Georgia rate was the highest in the South, and that it was a burden on the people. He declared that the Municipal League was a body of men who were interested in the water power and public utilities of the state, and that they were interested in the water power and public utilities of the state, and that they were interested in the water power and public utilities of the state.

### BOARD REFUSES CHIEFS' REQUEST TO REOPEN CASE

Consensus of Opinion Is They Will Leave Situation to Vote by Labor Ranks Without Prompting.

### POSITION IS SHOWN, HOWEVER, BY ACTION

Labor Board Made Known Its Refusal to Reconsider Award to Union Committee Waiting Upon It.

Chicago, July 21.—(By the Associated Press.)—Submission of the \$600,000,000 rail wage award to a referendum vote by the 1,800,000 railroad workers without recommendation from the union leaders, either for its acceptance or rejection, appeared probable tonight. This was the opinion in labor circles following rejection by the United States railway labor board of a petition for a rehearing of the case.

Three courses were open to the union chiefs:

First, submission without recommendation; second, recommendation that the award be accepted; third, that it be rejected.

Conservatives Oppose Rejection. The more conservative counsel in the union ranks has steadfastly opposed outright rejection of the labor board's decision. The door to recommendation or adoption of the award was closed today, leaders of the rail workers intimated, when they requested that the case be reopened, and the board refused to accede.

After asking for a rehearing, it appeared doubtful that the union leaders could consistently recommend acceptance of the award, as their action indicated it was unsatisfactory to them. The only course left open, therefore, would be to pass the board's decision along to the men and rely on their referendum.

It was reported tonight that ten of the sixteen brotherhoods had voted to accept the award with the proviso that new demands would be prepared immediately for presentation to the board. Three of the remaining organizations were said to have rejected the award, favoring an immediate referendum on the strike issue. The remaining three, which it was reported, included the Brotherhood of Railway Trainmen and the Order of Railway Conductors, were said to be "on the fence."

The executive council of the sixteen organization heads was still in conference late tonight, but group organizations were already commencing to dissolve.

Major E. L. Humes, former counsel for the senate propaganda committee and now attached to the department of justice, who was in the conference late tonight, but group organizations were already commencing to dissolve.

The labor board declined to reopen the case on the ground that its decision represented the conclusive survey in which both sides had

been given ample time to present all facts surrounding the case. No good could be accomplished at this time, members of the board stated, by granting a rehearing which would only serve to delay the case and prevent the men receiving the increased back wages in their August pay envelopes.

**Day of Conference.**  
A day of conferences between presidents of the eighteen unions recognized in the award and 1,000 general chairmen of those organizations failed to develop any common ground on which the leaders were willing to issue a statement. Two days and a night of meetings have failed to bring the leaders together, and W. G. Lee, grand president of the Brotherhood of Railway Trainmen, indicated the presidents would have no recommendation to make to the general chairmen before tomorrow.

Reports reaching union headquarters and the railroad managers' association here indicated with few exceptions that the men were holding fast and waiting for their officers to act.

**First Strike Reported.**  
The first reported strike was recorded in Chicago late today when about 100 Grand Central railroad employees walked out, according to company estimates. Strikers, however, claimed 900 men figured in the walk-out. Company officers said no demands had been presented and that it was presumed the men were dissatisfied with the railroad board decision.

From a few cities came reports that the men had voted to reject the award and stand on their original demands, but the ones so voting remained at work.

The decision to only the railroad officers tomorrow may have an important effect on the future of their organizations, in the opinion of observers who have made a study of the railroad wage demands.

**Dissension in Unions.**  
It is no secret that for months there has been dissension within the union ranks and an outspoken dissatisfaction over the failure of the union officers to obtain for their men the raises they demanded.

It was this dissatisfaction which culminated in the sporadic strikes in April. Men who joined the new unions and walked out insisted they were tired of the policy pursued by the "labor politicians" and that they wanted a "new deal."

In that crisis, heads of the powerful brotherhoods appealed to the railroad managers for aid. The unions furnished men to replace workers who quit, and the railroad declared the strikers' places vacated and their seniority rights forfeited.

The brotherhood leaders insisted the men would wait for the government's award, but now it had come they are all alive to the fact that, if the men reject it, they may also blame their leaders for not obtaining all that was asked.

So far as the rail labor board is concerned, the wage award is and tomorrow the case of the 75,000 employees of the American Express company will be taken up.

The board has promised a speedy decision. Most of the testimony has already been presented.

#### DEMOCRATS NAME COMMITTEE TODAY

tentative plans announced today. Almost immediately after his notification, now set for August 7, the governor plans to spend the three last weeks in August in these states and then start a western tour early in September.

It also was announced that the vice presidential nominee, Franklin D. Roosevelt, probably would tour the west, including the Pacific coast states, while Governor Cox is in the east. Mr. Roosevelt then will transfer his activities to the east while his chief is west.

The candidates' itineraries were gone over hurriedly today by George White, chosen yesterday as chairman of the democratic national committee.

Governor Cox is expected to "jump lively" during his eastern tour. He has promised to address the Ohio democratic convention here August 17.

**Regina Wins on Speech.**  
Next week, Governor Cox stated today, work on his speech of acceptance will be begun. He plans to leave here late this week for a week-end at home in Dayton and then return here to prepare his address, in seclusion from visitors as far as possible. The governor said his address would require "at least a part of a newspaper page."

He plans to have it printed at his newspaper office in Dayton and said he would have to do a rush job to insure time distribution to the nation's press.

Although democratic leaders appear agreed that the league of nations has a predominant campaign place, they expect Governor Cox and other party orators to press the parallel the governor drew in his address yesterday in which he pictured the republicans and their candidate as the champions of reaction, with the democrats those of progress.

**TREATY AND LEAGUE NOT "FIXED ISSUES."**  
Washington, July 21.—The peace treaty and the league of nations can in no way be regarded as "fixed issues" in the presidential campaign, inasmuch as their present status may be "much changed" between now and March, Franklin D. Roosevelt, democratic vice presidential nominee, declared today on his return to Washington from attendance at the meeting of the democratic national committee at Columbus.

Mr. Roosevelt, in a talk with newspaper men, said that Governor Cox, the party's presidential nominee, undoubtedly would set forth his position on the treaty issue fully in his address at the notification ceremonies, which have been fixed tentatively for August 7.

In connection with the statements by the vice presidential nominee, the treaty question, it was asserted here today by a prominent member of the democratic party, that President Wilson and Governor Cox, in their recent conference here, expressed an accord only on the broad issues on the peace treaty and league of nations and did not discuss details. The various reservations that have been before the senate, it was said, were not brought up at the conference at all.

Affirming his support of the stand taken by Governor Cox on the question of campaign expenditures, Mr. Roosevelt declared:

"Everybody knows that the republican party three months ago, in planning to raise a huge campaign fund, divided the country into districts and assessed a definite quota against each. The assessment against Drexel county, New York, which I represented in the state senate, was fixed at \$25,000, although the population is less than 100,000. Nobody has any idea that such an assessment will be raised by one dollar or five-dollar subscriptions."

Mr. Roosevelt said his resignation as assistant secretary of the navy would be tendered to the president to take effect on the date of his address, accepting the vice presidential nomination, probably August 17.

## GEORGIA EDITORS RE-ELECT OFFICERS

Washington Chosen for the Next Convention. Scribes Will Journey to Rome for Last Day of Convention.

Carrollton, Ga., July 21.—(Special.)—Despite the continual downpour of rain from early morning till late in the afternoon, making a curtailment of the social program necessary, more than one hundred Georgia editors attending the state editorial conventions here spent the day in a continuous round of business and amusement and tomorrow will journey to Rome for the final day of the 1920 gathering.

Carrollton's good people have exerted themselves, in the face of trying weather conditions, to show not only their enterprise and civic progressiveness, but their warm and cordial hospitality, and the editors leave here tomorrow deeply endeared to these people for a season of genuine happiness.

Among the citizens whose hospitality has been keenly appreciated are Judge and Mrs. W. C. Adamson, who are home for the summer, from New York, and it was left to Judge Adamson to deliver the final address of the occasion, which he did this afternoon with his characteristic force, intermingled with a homely wit that only his own could equal.

The forenoon business session today was devoted to the selection of a committee to urge the bill now pending before the general assembly, authorizing a raise in rates of legal advertising.

One of the notable features of the convention was the meeting at the courthouse last night in which Judge W. B. Millikin, W. G. Sutlive and others spoke of the history of Carroll county and its prosperous capital, the thriving little city of Carrollton. This was followed by a lawn party on the court green at which the ladies of Carrollton served cream and cake and local drinks, everybody joining in the informal but thoroughly enjoyable occasion.

The social feature of today was a basket dinner, served in an immense warehouse, due to the inclement weather. Perhaps a better prepared, more sumptuous and more lavish basket dinner was never served in Georgia, and the editors and their ladies enjoyed the occasion thoroughly. Here again the ladies of Carrollton vied with each other to see which could be the most hospitable and the most entertaining.

Under the direction of W. G. Sutlive the editors tonight enjoyed a program of fun-making, caricaturing and extravaganzas.

It has been a highly successful meeting, despite the weather necessity for cutting out the fish fry at Bowden and the visit to Villa Rica and Douglassville, at all of which points great preparations had been made for the entertainment of the press boys.

### BOLSHEVIKI LAUNCH GENERAL OFFENSIVE

Warsaw, July 20.—The heaviest fighting ever experienced on the southern front is now under way, the bolsheviki having launched a general offensive from the Rumanian border to the Pripiet marshes. Detachments of bolsheviki have forced the River Zbrucz, bringing the battle upon Polish soil for the first time.

An official communication issued today announces fierce fighting along the Sty river. All the red attacks have been repulsed except at one place, where the reds forced a crossing.

The communication also says that a furious battle is raging in the region of Rovno. In the north, the fighting has reached a point east of Grodno. There the reds are driving south-

### U. S. TRAPSHOOTERS ARRIVE IN ANTWERP

Antwerp, July 20.—American trapshooters have arrived at Antwerp, fresh from victory in the international match at Hendon, England, and are confident of winning both team and individual events in the Olympic clay pigeon shooting. The American running stag and pistol shooting teams have also arrived and, with the rifle team which is now training at the Olympic army range, complete the American representation to take part in the shooting events.

The trapshooters, under Jay Clark, finished an easy first at the Hendon shoot, breaking 113 out of a possible 120 targets in the team match and winning five first places in the individual events. Frank Froeh made a perfect hundred.

## Save Money—Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires, of the 30 x 3-, 30 x 3½-, and 31 x 4-inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

## IRISH PROTEST LARKIN'S ARREST

**Demonstration Staged in Dublin for Release of New York Prisoner Serving Term for Criminal Anarchy.**

Dublin, July 21.—A demonstration was staged here today in an effort to help the movement for obtaining the release of James Larkin, serving a sentence in New York on conviction of criminal anarchy. A general strike was ordered by the sponsors of the demonstration, but the response to the call was not general. A procession planned to demonstrate in front of the American consulate was participated in by comparatively few workers.

No untoward incident occurred there, the demonstrators confining themselves to cheers for Larkin. A strong police force was on guard at the consulate. Fears had been expressed that the demonstration would be accompanied by attacks on trains. All that occurred of this sort, so far as could be learned, however, was that armed men held up one of the suburban tram lines, that to Sandymount, for two hours by intimidating the drivers. Service otherwise was not affected.

Labor is divided upon the question of the strike, even the liberty hall chieftains, and as a result, it is said, such a method of applying pressure to the American government. The order to lay down tools was not generally obeyed, but the extreme wing of the labor men expressed determination to bring the workers out and were reported this morning to be forcing the withdrawal of laborers from buildings on O'Connell street. At the city market armed men caused the workers to cease their tasks while vehicles were stopped and attacked in the streets. The liberty hall citizen army, it

is declared, is taking sides against the moderate chiefs of the organization. When he concluded, Mr. Jackson called upon Judge Covington, who made an eloquent appeal, alluding in a sarcastic vein, to Mr. Atkinson's return from his Canada vacation "to save the state." When Judge Covington had finished, nothing more was said about giving Mr. Arkwright the floor, and the committee went into executive session. The vote was taken on both bills together without a roll call, and the executive session lasted for hardly more than a minute.

Many attempts, it is asserted, had been made previously to sound the Sinn Fein on possibilities of a compromise, and there appears to be no reason to suppose that this will be more fruitful than the others. The Sinn Feiners declare that they will not negotiate.

**MILITARY PROCLAMATION PROHIBITS MEETINGS.**  
Cork, July 21.—A prohibition was created here today by the issuance of a proclamation by Major-General Strickland, commander in southern Ireland, prohibiting meetings, assemblies and processions within a three-mile limit of the Cork general post office.

The proclamation will become effective tonight. It affects many important local fixtures, including the city regatta.

**GOVERNMENTS PREPARED TO DISCUSS SETTLEMENT.**

London, July 21.—The Sinn Fein and the British government are prepared to discuss, if they are not already discussing, a basis of probable settlement of the Irish question, according to a statement recorded by the Daily Mail's Dublin correspondent.

The alarming increase of violence in Ireland, he says, is frightening the responsible leaders of the Irish republican party, many of whom appear to be inclined to listen to any generous offer from Downing street, but is understood that the home rule bill now being considered by parliament must first be shelved before the leaders will enter into negotiations.

and democrats, and tell of "the wonderful success of the prohibition party."

Tomorrow the delegates expect to elect the new national committee, possibly name a vice presidential candidate, hear a few more speeches and possibly adjourn by night.

In the meantime every effort was being made to get in touch with Mr. Bryan and learn his attitude toward the convention's action.

Other permanent officers chosen were: James G. Mason, New Jersey, assistant chairman; E. L. G. Hohenthal, Connecticut, secretary; Miss Minnette Murphy, Iowa, assistant secretary; W. G. Calderwood, Minneapolis, Minn., reading clerk; Neal Dow Cranmer, New York, sergeant-at-arms; Lucey Page Gaston, Chicago, assistant sergeant-at-arms. All selections were unanimous.

only that a new man feels on entrance into the army naturally filling him with a desire to relax when he leaves the military atmosphere of the camp, and there is no way of directing that relaxation. The boys from all of the camps have behaved themselves, however, without particular favor from Atlanta.

The officers of the camps also say that they have no fear for the welfare of the soldiers as long as they are in camp, for there they have reading rooms, billiard rooms and other recreational facilities; but that it is when they get their inevitable and indispensable leave from the confines of the camp that their anxiety begins.

**OFFICERS HAVE CLUBS.**

There is a hope among all the army men of the vicinity that Atlanta will awake to the need which is evident and provide the enlisted men with some accommodations of the needed sort, but their attitude is that if Atlanta does not see the need, the men themselves will provide it to relieve the present lack. The officers, they say, themselves are not worried about their own entertainment, for it is a known fact that the clubs of the city are available to them when there is no access for the enlisted man.

Major General David C. Shanks, commander of Camp Gordon, is keenly interested in the matter. He has said that the situation is one which commands immediate attention of some agency. Other cities, he has been pointed out, have rallied to the cause of supporting the recreation facilities for the soldiers in camps adjacent to them.

towns in Georgia which were now bonded up to their limit and that the bond limitation was the reason why Georgia municipal bonds were bringing better prices than United States government bonds. Take off that limitation, he declared, and you destroy the market for millions of dollars of Georgia city and county bonds.

Joe Hill Hall, of Macon, made a powerful argument against the bills from a constitutional standpoint. He urged that their passage would mean taking off all limitations on the legislature in the creating of a state debt. He urged that it would ruin the market for millions of dollars of municipal and county bonds which had already been authorized under the constitutional limitation.

"Vote to recommend these bills today," he added, "and you shake the market for every municipal and county bond. If you pass these bills you will destroy the market for this kind of securities until the people vote on your action this fall."

**JACKSON CONCLUDES ARGUMENT.**  
Following Mr. Hill, Mr. Jackson was given the floor to conclude the argument for his side. He read from a number of printed documents and circulars which he held in his hand, Preston S. Arkwright, of the new company, questioned a number of the statements made by Mr. Jackson and asked that he be given an opportunity to reply to them.

There was some informal discussion among members of the committee as to whether Mr. Arkwright should be given the floor, as the time to be given his side had already been practically abandoned.

Hammon, N. J., July 21.—"Billy" Dansey, who was kidnapped Octo-

ber 5, 1919, and believed to have been later murdered, has been found in Cleveland, according to a long-distance telephone message received today by Charles White, who is under \$7,500 bail, charged with slaying the child. The message was from Walter Griffin, who, according to White, went to Ohio to search for the Dansey boy.

Cleveland, Ohio, July 21.—After talking with Walter Griffin, who claimed that "Billy" Dansey had been found in Cleveland, local police placed little credit in the Griffin story and said they did not believe the Dansey boy was safe.

Police say that a woman, from whom Griffin is believed to have secured information regarding the

**Portage Tires**  
ALL OVERSIZE  
Tires

Made in "DAISY" and "SKIDLOCK" Treads  
Portage Tires Are Safe Guides to Big Mileage!

**ONE** hundred and fifty years ago, the scanty population of America was clustered along the Atlantic seaboard. The land of golden promise—the west and north—constantly lured intrepid pioneers to venture into those unknown wildernesses at the peril of their lives. The surest and safest method of travelling was by canoe. But when the end of the lake or river was reached, canoes and trappings had to be carried upon the backs and shoulders. Then the hardships and perils of the traveller began. Those primitive paths between the waterways were called the *Portage*. Upon those trails the grit and stamina of our forefathers were tested to the utmost. Only the strongest survived.

In journeying from New York to Canada, led through a chain of rivers and lakes linked together by small boats, these latter are unknown in history but their importance can be measured by the fame of the forts that were built upon them. How much history have the names of Fort Crown Point, Fort Ticonderoga, Fort William Henry, Fort Schuyler and Fort Nicholson wrapped within them! From Albany to Montreal these *Portages*, small and great, were the key positions for which hostile forces of Indians, French, English and Colonial troops fought and battled. The history of the early years of our country cannot be told without mention being made of these *Portages*.

**TEN** years ago we built the first Portage Tires. They were so named because we designed them to be rugged, strong-muscled and faithful "carriers." They were built to give generous mileage and positive service. And they lived up to their historic name.

Today Portage Tires are better than ever. Every advance in the art of tire building has been utilized by Portage engineers and chemists.

Time and money have not been considered when their expenditure meant increasing the mileage and endurance qualities of the tires. The 1920 Portage Tire proves the soundness of the investment.

The motoring public has shown its appreciation without stint. As a consequence the demand for Portage Fabric Tires and Portage Cord Tires has grown almost faster than our capacity for building them.

## MANAGER FOR COX CONSIDERED "DRY"

Fact That Moore Was Identified With "Wets" Caused His Resignation of Campaign Reins, Sullivan Says.

BY MARK SULLIVAN.  
Columbus, Ohio, July 21.—What reasons determined the dropping of Homer Cummings as national chairman and the choice of George White as his successor are matters wholly within the minds of Governor Cox and his intimate advisers. Whatever is set down here is necessarily surmise. Of course, the fact that the change should be made is so usual that it hardly calls for discussion. It is universally accepted that candidate has the right to appoint his campaign manager. Not merely does he want to be sure of absolute loyalty, but in addition, the relation is one of such intimacy that the candidate's right to name a man of his own personal choice is unquestioned. The dropping of an old incumbent implies no reflection whatever. Homer Cummings has been an excellent chairman and his recent speech at San Francisco elevated him to a position among the first three or four leaders of the party. Just as Governor Cox need make no apologies for the change, Cummings need have no regrets. His position, based on his past performance, is assured. The other choice for the chairman would have been E. H. Moore, of Youngstown, Ohio. Moore is the man who "put Cox over," and for many months he has devoted himself to the enterprise of making Cox the democratic nominee for the presidency.

**Shows Real Genius.**  
In that enterprise he has shown resourcefulness little short of genius and a persistence which again and again, and especially during the last few hours of the balloting at San Francisco, was the one thing without which success could never have come. The nomination of Cox was made by Moore quite as much as it was made by Cox himself. Many of the delegates came to the convention for the purpose of making Moore as "through motives of belief in Cox."

**Already "Wet."**  
Cox's candidacy is already too much identified with the "wets" to be entirely comfortable. Cox's candidacy is identified with the "wets" to an extent that they make the public think of Cox as more "wet" than he personally is. Under these circumstances it may well have been inadvisable to take on as campaign manager a man who has been more or less officially identified with the "wet" side of most of the "wet" vs. "dry" contests that have taken place in Ohio politics in recent years.

Whether this be the motive or not, the fact is that Moore was dropped and George White chosen. George White has been second to Moore in command of the organization which promoted Cox's nomination. White is a high-class man. He is a politician who does not look the part and, in fact, is an unusual type in politics. White looks like a professor of mathematics in a country college, and has in him a streak of Calvinistic conscience that differentiates him from the easy-going.

Give-and-take of the typical politician. While he has the tolerance and amiability and a good deal of the camaraderie that are essential to a political career, there is al-

**ELECT HUFF MAYOR**

ways at the bottom a streak of the Sunday school teacher, which he was in his youth. White will never make a martyr of himself unnecessarily, but at the same time, if he doesn't think a thing is true, he won't say it for the sake of political expediency.

**Will Not Be Rockless.**  
White will never become as reckless of scruples as political managers occasionally become in the heat of the final hours of a battle. White is considered a "dry," and that fact probably helped in determining his choice. To a degree, at least, he will neutralize so thoroughly fastened upon Cox by the method of his nomination. White is an ex-congressman, and while he was in congress, up to some two years ago, was always regarded as a Wilson man. He and Cox have long been associated in Ohio politics, and there is a good deal of mutual confidence between them. While White is decidedly his own man and could never be a rubber stamp to even so intimate a friend as Cox, nevertheless one rather gathers that Cox, by virtue of his greater energy and extraordinary resourcefulness, will probably do a good deal of the managing of his own campaign.

Up to date, indeed, that is rather the impression one gathers of Cox. You feel that he would be a 100 per cent campaign manager with energy, resourcefulness and executive ability of the highest order. Whether he has those reflective qualities remains to be seen. So also does it remain to be seen whether he has those spiritual qualities that are essential to the kind of leadership that he aspires to.

## AVERAGE \$250 EACH POLAND CHINA HOGS AT ANNUAL SALE

Dublin, Ga., July 21.—(Special.)—Between 1,000 and 1,500 persons attended the sale of pure-bred spotted Poland China hogs at Elmwood Stock Farms, about eight miles from Dublin today, and although none of the hogs brought sensational prices, the average was considered very fair. A total of thirty-five hogs all but one bred sow, brought approximately \$9,000, or an average of about \$250 per head.

A barbecue dinner was provided for those attending the sale and the dining pavilion on the farm was crowded to the limit. M. C. Denny, owner of the farm, is one of the most successful breeders of this type of hogs in the south now and has a splendidly equipped farm in every detail.

All the best blotting paper is made from soft cotton rag.

## PYRON TO HOLD ANNUAL SALE BERKSHIRE HOGS

Cartersville, Ga., July 21.—(Special.)—The annual Berkshire hog sale conducted at Meadowview farm by Ruops Pyron takes place tomorrow and already a large number of breeders from over the south and west are here to take part. Prominent also among the visitors are various railroad agricultural agents, government and state agricultural and live stock officials, and agricultural college and county agents.

Congressman Gordon Lee was here today to attend the Bartow County Pig club meeting at Mr. Pyron's place. A large gathering of boys and girls from over the county were in attendance. A luncheon was served by Mr. and Mrs. Pyron to more than two hundred guests. The sale last year at Meadowview farm was the largest southern Berkshire sale held up to that time and the fourth highest average price was maintained at the sale in the world for the year. Mr. Pyron's Premier Direct and Epochal's Britisher have national and international reputations and are known by all swine authorities. It is believed that the sale tomorrow will register new records for high average sales of the herd known to be the largest in the south.

## Damages Awarded As Result of Poisoning Caused by Antitoxin

Macon, Ga., July 21.—(Special.)—Verdicts aggregating \$2,100, in addition to several hundred dollars' attorneys fees, have been returned here against the H. K. Mulford Company of Philadelphia, as the result of defective antitoxin, which was sold by that concern to the Macon health department and administered to a number of Macon people as a preventative against diphtheria. Charles Preston Leverett, son of C. C. Leverett, a city fireman, has been awarded \$1,000, and a similar verdict was found for John Cohen Smith, son of T. J. Smith. A \$100 verdict was awarded C. D. Alexander, Jr.

After the antitoxin had been administered, it was found that it was poison and the victims, of whom there were several, suffered severely. In the case of young Leverett, the boy came near losing his arm. Several other suits of a similar nature to those in which damages have already been awarded are said to be pending.

The Philadelphia concern has not been fighting the cases, but has devoted its efforts to arranging the best settlements possible.

## Cushion Truck Tires

Many truck tire problems in many lines of business are answered by Firestone Cushion Tires.

They have added cushioning power needed for proper protection to your load and truck. They have the wearing strength needed for maximum mileage.

**12% to 27% More Rubber**

Firestone Cushion Tires have a greater volume of material. That is one reason why they ride easier. It is obvious, too, that this means longer wear. The extra wide tread provides approximately 20% more area of road contact—giving firmer traction under all conditions.

**300% More Efficient in Heat Radiation**

Overheating is a common danger to truck tire equipment. But Firestone engineers have evolved this special Cushion shape that lessens the strain through a different flexing of the rubber and gives a greater surface for heat radiation.

**Any Truck Immediately Equipped**

Firestone Cushion Tires are built to fit any S. A. E. base. No wheel changes necessary. The nearest Firestone truck tire dealer can apply them to your trucks and trailers without delay or added expense.

If you want resiliency plus extra-long wear, and if you want the practical economy of most miles per dollar, put on Firestone Cushion Tires. Made in all sizes.

**OIL CHARGE RETRACTED  
BY CALIFORNIA BODY**

San Francisco, July 21.—The California Automobile Trade association has withdrawn charges filed with the department of justice that production of oil on the Pacific coast was being held down in order to force up the price. It was announced today. In a statement it was said the organization "rescinded all action to induce investigation by federal authorities as it was unable to substantiate the charges on which the request was based."

**FARES AND MILK  
TO BEAR INCREASE**

Roads Will Ask These Increases and Express Raise to Meet \$600,000,000 Pay Award.

Washington, July 21.—Milk and passenger transportation are to bear substantial portions of the increase to be asked by the railroads of the interstate commerce commission to offset the \$600,000,000 added yearly expense caused by the labor board's wage award, it was announced today by A. P. Thom, general counsel for the Association of Railway Executives.

After two days of continuous conferences, the executives, Mr. Thom said, have practically completed recommendations for spreading the increased expense to the roads over passenger and freight traffic. Only the detail work necessary in figuring the percentages to be applied remains to be done, and the recommendations will be presented to the commission possibly tomorrow.

**Increase on Pullmans.**

Passenger fares and rates are not included in the pending application of the roads for a freight rate increase of approximately 28 per cent. Mr. Thom declared, however, that it was planned to ask that the passenger traffic absorb as much as possible of the new \$600,000,000 charge against operations. Increases will be asked on communication and multiple tickets and on Pullman charges, he said, as well as on ordinary travel. Transportation of milk, on which no increase has heretofore been asked, is considered as a combination of freight and passenger traffic, Mr. Thom added.

Express rates will also be increased, he stated. The increased expense to be absorbed by passenger traffic is expected to amount to about one-half cent a mile in the east and from three-quarters of a cent to a cent a mile in the west. The portion to be applied to freight would amount to 8 per cent, making a total of about 36 per cent increased freight rates to be sought by the roads.

Some difficulty is expected by the carriers to be encountered in distributing the rate increase on passenger fares because the greater portion of such traffic is intrastate and because there are many state laws to which the new schedule must conform.

**MARTENS VIOLATED  
DIPLOMATIC USAGE**

Government to Give Evidence of Alleged Secret Trial to Prove This.

Washington, July 21.—Evidence was offered by the government at today's hearing in the deportation proceedings against K. Martens, Soviet "ambassador" in the United States, to prove that throughout his activity in this country Martens has not held himself to diplomatic usage which he has claimed title to exercise.

The hearing was adjourned today until July 28 to permit the government to produce witnesses to testify concerning Martens' alleged extra-diplomatic activities, in particular a secret trial of Louis Freyha, in Brooklyn last December, conducted by Martens in his capacity of Soviet agent.

The trial, according to evidence in possession of the government, was held to pass upon Freyha's application to the Soviet bureau in New York for a passport. It is alleged that Freyha was charged by certain Bolsheviks that, as an alleged agent of the department of justice, Freyha had forfeited all claims to trial privileges. At the reported trial Freyha was acquitted by the Soviet authorities of the charge.

Additional evidence to be produced at the hearing at Ellis Island next week, it is understood, will include the report of the senate committee which investigated Martens' activities. Also a letter to Martens from A. V. Rutgers, leader of the Amsterdam conference of the third international, dated "Amsterdam, January 16, 1920," and outlining the scope of Martens' work in this country, is expected to play an important part in the charge against Martens, of having connection with an organization seeking the overthrow of the government of the United States by force. This letter now is in possession of the government.

**Rutgers letter.**

"You were selected as ambassador," Martens was informed by Rutgers, "and not Weinstein, for obvious reasons. From your activities it was clearly demonstrated that you consider commercial representation and efforts for recognition paramount. Bolsheviks and other comrades agreed with this position. Your supposed clear conception of uncompromising communist principles decided that you and not Weinstein was preferable."

The principles of the government at the final hearing next week, it is understood, will be devoted, however, to evidence of Martens' affiliation with the Russian communist party. Practically the only defense offered by Martens at the hearings is contained in a formal statement prepared by his counsel and offered at the session on July 14. It became known today also that Martens, throughout the hearings, which began January 2 and which have been executive, has persistently refused to answer questions propounded to him by the government.

**NORTHWEST IS GIVEN  
PREFERENCE IN COAL**

Washington, July 21.—Operators of bituminous mines in western Pennsylvania, West Virginia, Kentucky and Tennessee must provide a winter stock of coal for the northwest under Army and Navy emergency orders issued yesterday by the Interstate Commerce Commission, the railroad service minister in the states named not only will be given preference in the movement of coal to the northwest but will also preference in the supply of cars for such shipments as well.

Under the orders the railroads will bend every effort to get twenty-three million tons of coal, estimated, northwestward, in shipments, to lake ports before the closing of navigation due to ice. To this it was estimated more than four thousand cars must be dumped daily at Lake Erie ports before November 1.

Peking, July 21.—Peace terms amounting to complete capitulation of the military party have been offered by general Tuan Chi-Jui, the army commander. It was stated here today. The terms are being communicated to the leaders of the Chihli faction.

Tuan Chi-Jui, it is said, being confronted with what he considered unsurmountable difficulties, tendered his resignation of the army's command to his subordinates. The peace terms which accompanied the presentation of his resignation included the punishment of General Hsu-Shu-Chang, the former resident in commission of inner Mongolia, who refused to recognize his dismissal; the discharge of all troops under the command of Tuan Chi-Jui; the dissolution of the parliament; the dismissal of three Anfu ministers; and the suppression of the Anfu club.

**BOILER MAKERS QUIT  
STANDARD OIL JOBS**

Baton Rouge, La., July 21.—Carrying out the decision of the meeting Tuesday night, about 400 boiler-makers walked out at Standard Oil refinery this morning at 8 o'clock. The men claim the company refused to hear them on the subject of wage adjustment and their helpers. The union wants to confer with an organization and the official in charge on continuing their own plan of representation of the working men in the different units.

The officials of the local union say they are willing to arbitrate now only if the company takes the initiative. The strike has the sanction of the International Boiler-makers' union.

President Weller, of Standard Oil Company of Louisiana, states the company has its own plan of industrial representation agreed on by employees for settling all disputes and followed for several years and is willing to confer with boiler-makers, but not as members of a union. Responsibility of management and authority of management cannot be divorced, he says.

They imagine that a million dollars represents a tremendous part of the national wealth.

Instead it represents only one penny for each inhabitant of our country.

Swift & Company last year had an output of 5,500,000,000 pounds. A profit of one cent per pound would have resulted in \$55,000,000.

The actual net profit was \$14,000,000 or one-fourth of what we would have made had the profit been at the rate of 1 cent a pound.

An average profit of only a fraction of a cent per pound indicates a highly competitive condition in the industry and also proves our assertion that packer profits have practically no effect on prices.

## BAHNSEN ADMITS MILK CONVICTION

State Veterinarian Expedites Hearing by Telling Probers of Police Court Case—Hearing Is Continued.

Stating that he wished to expedite the hearing as much as possible, Dr. Peter F. Bahnson, state veterinarian, whose official conduct is now being investigated by a joint committee, admitted Wednesday that he had been fined \$10 in the recorder's court of Atlanta for selling adulterated milk.

Due to the absence of several material witnesses, this was the only evidence offered by Mr. Williams of Worth county, the prosecutor, and author of the joint resolution directing the probe.

In presenting the transcript of the record of the recorder's court showing the fine, Senator Barrett, chairman of the committee, stated that it was not really admissible as evidence since it was not certified, and ruled that the paper could not be accepted as evidence unless Dr. Bahnson admitted the fact that he had been found guilty on the charge placed against him in police court.

In speaking of his conviction in the recorder's court for selling adulterated milk, Dr. Bahnson stated that his wife was really the operator of the dairy at his home and

"Tanlac restored my health nearly four years ago," said Mrs. Juanita Morfin, of 414 West Grand avenue, Oklahoma City, Okla., "and I am still feeling fine."

"I had suffered for a long time with my stomach and kidneys and had become run-down, weak and nervous. I could not eat and after every meal I would bloat up with gas and have a tight, smothering feeling through my chest. There was a dull pain in my side and a burning pain in my back. I was extremely nervous, could hardly sleep and was about ready to give up hope of ever getting well."

"Tanlac soon had me feeling fine. Since then I take a few bottles of Tanlac each year, and by so doing I keep my system built up and feel strong and well all the time. My father, 71 years of age, says Tanlac keeps him able to work, also. He commenced taking it at the same time I did and has been like a different person ever since. He was troubled very badly with indigestion and was hardly able to get about. But he has little trouble of any sort now and enjoys splendid health for one of his age."

## COX AND ROOSEVELT INVITED TO GEORGIA

Lower House Passes Privileged Resolution Extending Invitation.

An invitation was extended Wednesday morning by the Georgia house of representatives to Governor James M. Cox and Secretary Franklin D. Roosevelt, democratic candidates for president and vice president, respectively, to visit Georgia and to speak to the people of this state upon issues of the day. A privileged resolution, asking the democratic leaders to visit the state, was introduced by Representative Alford, of Baldwin, and by vote of the house, it was unanimously adopted.

After disposing of the regular routine Wednesday morning, the house passed to unfinished business, and the Knight resolution seeking to appropriate the motor vehicle tax fund of \$1,800,000, came up. This resolution had been set for special and continuous order for Tuesday, and as no action was taken on it before adjournment Wednesday, it will come before the house again Thursday morning.

The Knight resolution took up practically the entire time of the house Wednesday, there being a number of speakers on both sides taking part in the very spirited debate. After two minor amendments had been introduced, Mr. Cullenper, of Fayette, was recognized. He declared that the Knight resolution was a most serious matter, and made a plea for a wise and fair adjustment. He spoke in opposition to the resolution, quoting figures to show why the Knight resolution should not be allowed to pass, and according to his view, disturb the great highway program that is being carried out in the state.

Representative Moore, of Butts, who spoke in support of the resolution, saying that the program mapped out by the highway commission to date only touched fifty of the one hundred and fifty or more counties in the state. He said that out of the 430 miles of post roads to be constructed, not one mile would be built in Butts county. Mr. Williams, of Bulloch, spoke in the interest of harmony, urging the representatives to get out of the interest of the highway system.

Representative Covington, of Colquitt, made a telling appeal against the Knight resolution, saying that the highway program was a most serious matter, and that the highway law did not contemplate county road systems, but a comprehensive system for the entire state. He suggested that the motor tax fund is distributed it should be prorated upon a basis of health for one of his age."

Mr. Lanford, of Toombs, spoke emphatically in favor of the Knight resolution. Before any action could be taken upon the measure, the house adjourned to adjourn until 9 o'clock Thursday.

J. J. Slackum, 38 years old, of Smyrna, Ga., is no slacker, when it comes to marrying, according to officers at police headquarters, where he is now held under a charge of bigamy. Slackum is said to have two wives, and both living in Atlanta. However, they live on different streets, and not in the same neighborhood. Slackum says he does not recall two visits to the altar.

**ATLANTA BOY WRITES OF BOYS' SUMMER CAMP**

In a letter to Lieutenant Beaman, of the local naval recruiting station, David B. Mangham, an Atlanta boy, who is taking a course at the Boys' Summer school at Hampton Roads, Virginia, reports that the Atlanta boys at the camp are well satisfied. The food, he asserts, is excellent and the treatment is good. He further states that the boys who did not go to the summer school missed a good opportunity for excellent training and a fine time.

Beautiful Silver for Your Table

A correctly appointed table requires silverware which has been carefully selected and properly kept, combined with immaculate napery and rich china.

The glimmer of well-chosen silver under soft lights sets off the dinner effectively and makes the setting a thing of beauty.

## CHRISTENSEN ASKS RELEASE OF DEBS

Wires Harding and Cox Suggesting Combine to Demand Socialist Candidate's Release From Atlanta Pen.

Denver, Colo., July 21.—Parley P. Christensen, farmer-labor party candidate to president, today telegraphed to Senator Harding, republican nominee, and Governor Cox, democratic candidate, suggesting that all join in a demand upon President Wilson to immediately release Eugene V. Debs from prison.

The text of the message follows: "I have been selected by the farmer-labor party as its candidate for president of the United States. It is my intention to inaugurate as quickly as possible a nation-wide campaign in behalf of the ideals of political and industrial democracy embraced in the platform of that party."

**Wants Clear Field.** "But I dislike utterly to start on such a campaign while one of my opponents is in prison and especially while he is in prison for no crime other than an honest public expression of his political views. I refer to Eugene V. Debs, nominee of the socialist party."

"The war has been over for nearly two years and whatever justification there might have been on the part of the government for denying Debs his freedom during the war has now been dispelled by twenty months of peace. Mr. Debs may be utterly wrong in his ideas of how best to conduct the affairs of society, and so may I be, and so may you, but my conception of liberty includes the right to think wrong. I say to Mr. Debs and to others with whom I disagree, including the candidates of the republican and democratic parties, 'I loathe your ideas like death, but I will defend with my life your right to express them.'"

**Matter of Justice.** "Does it not appeal to you as a matter of simple justice that the presidential candidate of the democratic, republican and farmer-labor parties should join in a demand upon the president of the United States to immediately release the socialist candidate from Atlanta prison?"

"As for me, it shall not be said that I have been a party to the persecution of any man for the opinions he holds and I should so regard myself if I failed to publicly announce my condemnation of the imprisonment of Debs since I have entered in a race in which he is a competitor, and the government has nomination, to consider the position of Debs. I beseech an answer from you to this proposal."

**Tobacco Workers Strike.** Madrid, July 21.—Tobacco workers revolted against the government work in shops where syndicalists are employed. The police intervened and the government has threatened to close the factories if disorder continues.

## MANY BURGLARIES NOW BEING PROBED BY LOCAL POLICE

Jim Thompson, who gave his age as 15 and his residence as 48 Hemp-hill avenue, was held in a \$500 bond for trial in the state court on a charge of burglary by Recorder Johnson Wednesday afternoon.

Thompson is said to have been discovered in the store of A. E. Davis, 410 Marietta street, by Patrolmen Rakestraw and Alevine Tuesday night.

Detectives Cody and Mosley arrested Berry Perdue, a negro, accused of burglaries committed during the month of June. One of the places he is said to have burglarized was 203 1-2 Decatur street. A quantity of stolen articles has been recovered.

Burglaries at the following residences were reported to the police department Wednesday: The apartment of Mrs. H. P. Brocklesby, at 255 North Jackson street, was entered and a pocket book containing \$10 was taken, with other articles.

Mrs. Rosa King, of 128 Green-wood avenue, reported that burglars stole from her house a lady's gold watch set with a diamond, valuable pins, rings and other articles were stolen.

Detective W. O. Stone Wednesday afternoon recovered a diamond ring, said to be worth \$1,000, which had been stolen in Athens, Ga., and pawned in a local pawnshop. It was turned over to Police H. W. Burne, of Athens, who stated the suspect in the case. It is understood she is a young woman.

## TWO ATLANTA MEN PAID HIGH HONORS BY AD SPECIALISTS

With the election Wednesday of E. B. Dallas as president and W. R. Massengale as secretary-treasurer, Atlanta has been awarded the distinction of furnishing the two important offices to the Southern Association of Advertisers, according to dispatches received from Asheville, where the annual convention of that body is in session.

Mr. Dallas, elected to the presidency of the organization, is president of the Johnson-Dallas agency of Atlanta, and is also a member of the national board of the Associated Agencies of America, according to dispatches received from Asheville, where the annual convention of that body is in session.

**CITY CURB MARKET WILL BE OPENED EARLY THURSDAY**

Today the new plan of three market days a week, which was recently decided on by the market governing board, will start. Formerly the market was open only on Tuesdays and Saturdays. The farmers were consulted on the advisability of three days instead of two and readily acquiesced in the arrangement. They will be on hand this morning as usual with their regular lines of produce.

From the date of the opening of the market until the inauguration of the three-day plan, the curb market will be open on Tuesdays, Wednesdays and Thursdays. The farmers will be on hand this morning as usual with their regular lines of produce.

Since the first day, the crowds

## The First Comptroller of the Currency

In the first report issued by his office, Honorable Hugh McCulloch, the first Comptroller of the Currency of the United States, outlined the policy which this bank has scrupulously followed during its entire history:

"Do nothing to foster and encourage speculation.

"Give facilities only to legitimate and prudent transactions.

"Distribute your loans rather than concentrate them in a few hands.

"Pursue a straightforward, upright, legitimate banking business.

"Treat your customers liberally, bearing in mind that the bank prospers as its customers prosper."

If the observance of this simple, but very comprehensive, policy appeals to you, and we are not at present favored with your business, we should like very much to talk with you on the subject.

## ATLANTA ROTARY PLANS BIG OUTING FOR NEXT TUESDAY

Atlanta Rotary is planning a wonderful layout of assorted enjoyment for its big get-together rally on the sloping shores of East Lake next Tuesday afternoon, July 27. LeRoy Rogers, major domo, charge d'affaires, and director general of the affair, has already announced 714 things which will be done, and is still announcing.

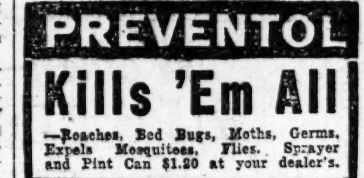

Among the elements of activity which have already evolved into certainties for the occasion are golf matches, for ladies and for gentlemen; putting matches, for the same; swimming, diving and fishing contests—as well as a crowning gastronomic glory in the delectable form of East Lake shad, as a complement to the carp caviar contest, and a complement to the carp caviar champion.

The merriment will begin to show off at 8 o'clock Tuesday afternoon, and the dinner will be served on the terrace at the club at the hour of 7:30.

The affair has been arranged by

## Florida Judge Will Correct the Sentence Of Riley C. Hammers

Riley C. Hammers, now an inmate at the federal penitentiary, who recently applied for a writ of habeas corpus on the grounds that he was being illegally detained at the prison, will be returned to the trial court in Florida for correction of sentence, it was ruled Wednesday by Judge Samuel H. Hixley in federal court.

Hammers was convicted on twelve indictments charging violations of the Harbort narcotic act. He was sentenced to serve nine terms of three months each. He was held at the federal prison without authority, he contended, on the grounds that it was illegal for anyone to be sentenced to federal penitentiary for less than one year. He will be returned to Tampa in custody of Marshal Claude Bond.

# Concerning—Harry Goodhart's Candidacy For Mayor—

I am prompted to write this card for two reasons:

FIRST: To take this method of expressing my deep appreciation to the almost innumerable number of men and women who conveyed to me assurances of support during the brief time I was a candidate for Mayor. It would be impossible for me to personally acknowledge my gratitude to each one.

SECOND: To say to all my friends that HARRY GOODHART stands for all that is best for Atlanta. If you trusted me for my sake, then permit me to urge you to work and vote for

## Miss Watson Complimented.

Mrs. A. E. Harless entertained at an informal tea yesterday afternoon at her home on East Fifteenth street, inviting a group of friends to meet her sister, Miss Watson, of Ohio, who is her guest for the summer.

Throughout the handsome home the decorations were in summer flowers, from the garden of the hostess, arranged in French baskets and silver vases. Tea was served from the dining room, where the lace-covered table was graced with a silver jay-cup filled with gladioli, feverfew and aster, which formed the centerpiece. Encircling this were silver candlesticks holding blue unshaded candles.

Mrs. Harless was gowning in a coru Georgette crepe embroidered. Miss Watson wore a gown of pale green Georgette crepe. Assisting Mrs. Harless in entertaining were Mrs. G. W. Brine, Mrs. J. D. McCarty, Mrs. Arnold Eroyles, Mrs. Willis Jones, Mrs. Everard Richardson, Mrs. A. B. Ware, Mrs. Thomas H. Fraser, Mrs. Frank Smith, Mrs. Clyde King, Mrs. M. Craig Matthews, Mrs. E. Rivers, Mrs. F. G. Lake. About fifty guests called during the afternoon.

## For Miss Belk.

Miss Ruth Belk, bride-elect of this month, was honor guest at a linen shower given by Mrs. Thomas Johnson at her home on Oaklawn

avenue, yesterday afternoon. Many exquisite gifts of linen were presented the honor guest by Miss Margaret Johnson, the little daughter of the hostess, who was dressed in pink tulle representing Cupid.

A wicker basket filled with pink roses, with streamers of pink tulle tied on the basket formed the centerpiece of the tea table. Crystal candlesticks, holding pink unshaded tapers were placed at the four corners, while the other appointments were in rose color.

The guests included Mrs. Belk, Mrs. Julian Lipscomb, Mrs. Rauschenberg, Miss Ruth Rogers, Miss Mae Barnes, Mrs. Croswell, Mrs. Lewis Freeman, Mrs. Richard Jones, Miss Lois Buchanan, Miss Mae Rogers, Miss Iris Covington, Miss Thelma Yent, Miss Catherine Watson, Miss Barnhart, Miss Halie Watson, Miss Mize, Miss Leora Pollock, Miss Mamie Pollock, Miss Whitman, Miss Lewis, Mrs. George Turnipseed and Miss Lea Jones.

## Old Friends Entertained.

Mrs. J. West entertained the Old Friends' club Wednesday afternoon at her home on East Fifteenth street, with a push the party. The table was beautifully decorated with crepe paper and flowers. The following were guests: Mrs. W. M. Nichols, Mrs. A. L. Norriss, Mrs. A. Taylor, Mrs. H. O. Reese, Mrs. O. L. Jernigan and Mr. J. West.

## Bracelet Award.

Mrs. Dorothy Manley, chairman of the Fatherless Children's association, which will award this afternoon the one thousand dollar bracelet donated some time ago by Mrs. Werner S. Byck, to the committee fund, announces that Miss Mattie Little, head of the department of French in the Girls' High school, will assist in the decision, which will be made at the Georgia Terrace hotel this afternoon at 5 o'clock.

The bracelet, which is a gold hoop, with seventeen selected white diamonds, is a beautiful one, and a great deal of interest is manifested in its disposal. All interested are invited to be present.

## Dancing Party.

A happy occasion last night was the dancing party given by Miss Pauline DeGue at the home of her parents, Mr. and Mrs. Henry L. DeGue, when her guests were fifty of her friends among the sub-debs and their friends among the college boys.

Summer flowers decorated the house and outlined the terrace, and dancing was enjoyed indoors and out. A delicious supper was served at 11 o'clock. The lovely young hostess wore a dainty dancing gown of white organdy.

## Baby Health Center.

The baby health center sponsored by the Moreland Parent-Teacher association will meet every Thursday morning from 9 to 11 o'clock at the Church of Epiphany, corner North Moreland and McLenahan avenues.

## Great "Movie" of Woman's Suffrage

BY ISMA DOOLY

### Has Been Moved to Tennessee Stage

The great "movie" of woman's suffrage has now been moved to the Tennessee stage, with a galaxy of brilliant women stars in the cast. Democratic and republican women have joined hands to gain the victory which ratification in Tennessee would mean to the cause of woman's suffrage in this country.

The situation among the women in Georgia and Tennessee differs in two respects, in that there is a larger republican party in Tennessee among the white people than there is in Georgia, and the women in Tennessee were among the first of the nation to organize to fight for the cause.

Though there were individual women in Georgia among pioneer suffragists, the women of Tennessee began their fight through an organized group before Georgia did. The women there extended the suffrage doctrines through their organizations, and Tennessee women were long ago recognized among the leading suffragist spirits of the nation.

Though it would be surprising as a southern state to be the one to ratify, and thus bring the triumph, it would not be surprising to those who know the history of the suffrage movement in this country, and who know the valiant women of Georgia and Tennessee, who have done for many years. It would be a matter of great rejoicing among the women of Georgia, and the sister southern states.

Mrs. Catt is chairman. Mrs. Carrie Chapman Catt, who was the president of the National American Woman's Suffrage association, committee chairman for the first time, and there is a committee woman now in every state. The Tennessee women are now very busy the women of the nation be in their first steps in recognized citizenship, and a national political activity.

## Women--As Wives

### The Strong-Minded Woman

BY FRANCES M'DONALD

She is a strong-minded woman and her husband is the usual type found shackled to a strong mind. Where these retiring and self-effacing men find the courage to go on to glorious marriage, is one of the unsolved mysteries. Though it is a well-known fact that most of the strong-minded wives found their strength AFTER the marriage ceremony had been performed. The great big fearless woman with the voice that beats and strong mind as a rule was once a quiet, meek and not too clever maiden with straight hair and one beau.

And after about five years of desultory courtship, when it seemed as if the neighbors were entitled to a wedding or an explanation, the one beau found himself suggesting that they get married. And time of course did the rest. From the quiet meekness of the wall flower emerged the self-confidence of the married woman, and after that came the discovery that John liked a quiet life, which is always a safe cue for an enterprising woman. From then on John developed a habit of looking sideways and saying, "Very well, my dear. The rest was easy. Who couldn't be strong-minded under such circumstances? Till now she has the strongest mind in the Civics club—and the most obedient husband on the block—when he is home. But it is rumored that on the Russo John is beginning to take notice. He is still retiring and unobtrusive but he is becoming aware that there are in the world French heels as well as flat heels and the discovery seems to have rejuvenated him. In fact he looks about ten years younger than his wife, and knows the scores of every musical show in town, but being a cautious man he seldom whistles the airs at home—out of deference to his wife's strength of mind. He is absolutely faithful and loyal and self-effacing. In fact he completely effaces himself, put up a quipped, "You are my wife," tells the Civics club that he

works too hard—but she doesn't believe in him having time to get into mischief. And she is right as course. These strong-minded wives always are—as you well know if you happen to have one, or know one—or BE one.

Let That Be Purified From Danger and Unpleasant Effects.

Does your mouth ever have a bad taste in your mouth in the morning, heavy, coated tongue, headache, nervousness with a let-down feeling? You need Calomel.

Calomel will cleanse your liver thoroughly. Try Calotabs, the nausealess tablet that is delightful to take and is effective in effect. One tablet at bedtime, with a swallow of water—that's all.

Calomel, no salts, no nausea. Wake up in the morning feeling like a new man. Bright, alert, energetic and with a hearty appetite for breakfast. Eat what you please. No danger. Calotabs are so effective and so pleasant to take and so pleasant in effect that the manufacturers have lowered the price to a point where you can get a box of Calotabs for only thirty-five cents. Sold only in original, sealed packages, price thirty-five cents. At drug stores everywhere.—(adv.)

## Development of A Normal Baby

An inexperienced mother is often at a loss to know whether her baby is properly thriving, and may be unduly alarmed at small matters, or may not understand the serious nature of certain conditions. The best indication of a perfectly healthy baby is a steady gain in weight and quiet, peaceful sleep. A baby shows fretfulness, sleeplessness, gas or sour stomach, or is inclined to constipation. It should have attention.

Most of baby's troubles come from improper assimilation of food, resulting in indigestion. This leads to faulty elimination, and of course baby doesn't develop properly. When these symptoms occur, a good baby laxative will generally suffice, but great care should be exercised not to give baby strong, irritating drugs that will set up inflammation in the delicate membrane of his stomach.

One of the best laxatives for babies is "Baby Ease," a perfected preparation by a baby specialist, that is easy-acting, non-irritating, does not produce an over-action, or leave baby constipated. It is a safe, harmless and efficient laxative and corrects, if baby does not improve after a few doses, take him to a physician. Ask your druggist for "Baby Ease."—(adv.)

# GUN CLUB TO BUILD NEW HOME

Never before in the history

happening in the south has the most thrilling sport created so much interest as it has within the last six or eight months. Every part of the south of the Ohio river to the Gulf of Mexico and west of the Atlantic to the Mississippi have held state shoots and shooters from all over the country have been attending them in great numbers.

Until a few years ago the sport in the south has been waning, but early in this year, the southern sportsmen began showing increased interest until no part of the country can boast of any more or better shooters than the more or better pigeon fanciers of the south.

Atlanta has no doubt been the leader in this sport and can boast of the greatest number of shooters.

ers in the country as members of their local club. The interest began to grow in the 1930s, and the club began to sport the fraternity of the city that it has become necessary to have. The club has a larger and permanent quarters in the local shooters. The present president is W. B. Parrish, a year ago with W. B. Parrish as president. Mr. Parrish, through the club, has secured permanent grounds and a new plan and specifications for a new club house and the grounds laid out for new traps, making large traps, and the new tournament or any other large traps are held in this country each year.

The new grounds and club house are located on the river near Slimsville, on the River line, and is only five and a half miles from the city. The grounds are usually situated and are usually laid out for trapshooting. The club has a number of members of the local club and well known builders of Atlanta, and the club house completed and all the traps set in time for the regular season. The club here has a day.

Shooters from all over the south are expected to attend the meet, where in large numbers and one of the best programs that has ever been given in the southeast is to be presented. The program will be announced soon.

Many good records have been made by the local shooters and much interest created among the local sportsmen in the way the sport has been growing in favor in this city.

The following is the record of the local shooters computed since June 5 to July 17 this year:

New York, July 21.—While July advanced to a new high record today, selling at 45¢, or within 10 points of the money market, the market generally appeared shaky. The new crop positions developed considerable weakness and the close of the market was heavily steady with prices unchanged to 10 points lower.

The opening was generally 3 to 25 points lower and reflected concern over the spread of boll weevil. Although the market was generally steady, the whole market later rallied sharply on a further showing of shorts due to further showings throughout the belt and complaints about the spread of boll weevil. At the close, the market was steady, with prices unchanged to 10 points lower.

**Condition of Crop Generally Is Satisfactory, According to the Weekly Weather and Crop Bulletin.**

Washington, July 21.—With temperatures remaining close to normal, together with an abundance of rainfall in most of the southern states, the condition of cotton improved steadily throughout the week, according to the weekly national weather and crop bulletin made public today. While the crop condition was variable in different states and even in different parts of the same state, on the whole, the report said, it was "quite satisfactory."

New York, July 21.—The only noteworthy feature of today's stock market was the stout resistance offered to professional pressure. For the most part, trades exposed the right side, but made little impression.

Railway shares led the market, so far as the display of any leadership for definite trend. The recovery of transportation issues suggested a possible adjustment of the differences now existing between the railway brotherhoods and executives.

Reviews of conditions in the steel industry referred to increasing signs of reaction in allied lines of trade.

Interest in foreign exchange shifted from European remittances to South America, the rate on Argentina recording a further discount.

Liberty bonds were firm, but most domestic issues, industrial as well as railroads, showed nominal declines. Excessing Virginia deferred 6s, which were strong. Total sales, par value, aggregated \$7,715,200. Old United States bonds were unchanged on call.

1,000 MACHINISTS IN VIRGINIA STRIKE  
Norfolk, Va., July 21.—One thousand machinists walked out here today after notice by the Ironworkers' association, a union of employers, that the "open shop" policy would be inaugurated Friday. This decree followed a demand by machinists, boiler makers and allied iron workers for increases approximating 25 per cent with a 44-hour week.

men will be attempted, association officials state. Repair work on vessels in port is seriously affected by the strike.

Complainant: "You see, your worship, I was a little too happy, as you might say, when I went home, and me wife was ironing. We had had a word or two in the mornin' an' so I steps up prepared to make peace. I said, 'Let's forget it; quarrel; we were both wrong,' when what does she do but shove the hot iron against me head."

Magistrate: "Trying to smooth it over, of course. You can't blame her for that. Go home, both of you."—Pearson's Weekly.

## TURKEY DECIDES TO ACCEPT TERMS

Official Announcement to This Effect Made as Van of Greek Army Enters Adrianople.

Constantinople, July 21.—(By the Associated Press.)—Turkey has decided to sign the peace treaty. It was announced officially today. The Turkish war office was advised today that the vanguard of the Greek army had entered Adrianople.

Constantinople, July 20.—(By the Associated Press.)—The war office announced today that it had learned that the Greek vanguard had entered Adrianople. The Turks have destroyed the bridge over the Maritza river near the junction of the Constantinople line with the Adrianople-Salonic line, and have also destroyed four bridges within twenty miles of Thessalonica.

The Turks are entrenched at many points along the railway between the Maritza river and Thessalonica, prepared to harass the Greek advance. Wholesale arrests were made here today in connection with an alleged plot to promote a general uprising of Moslems against foreign occupation. The confession of one plotter is reported to have implicated high officials of one of the entente powers in the alleged conspiracy which was directed chiefly against the British.

**GREEKS AND BRITISH CRIM TURKS REPORTED.**  
London, July 21.—A Greek communication received this evening announced that the Greeks, supported by the British and Greek fleets, have occupied Heraclea and Rodosto, and that all Turkish resistance has been crushed.

## SYRIAN STATE ACCEPTS FRENCH ULTIMATUM.

London, July 21.—A dispatch from Egypt to the French authorities here today said it is reported that the Emir Feisal, head of the Syrian state, has accepted the terms of the French ultimatum. There has not as yet, however, been any official confirmation of this report.

## KEY CLUB ORGANIZED IN THE FOURTH WARD

Organization Perfected After Address Delivered by the Mayor Last Night.

Speaking from the veranda of the residence of W. W. Huddleston at 244 Highland avenue, Mayor Key, candidate for re-election in the forthcoming primary, Wednesday addressed a gathering of voters of the fourth ward. After the mayor had concluded his address, a Fourth Ward Key club was organized. Officers elected for the Key club were J. P. Hutchins, chairman, and Dr. B. T. Beasley, secretary. Other speakers were Claude Ashley, councilman from the fourth ward, and B. Lee Smith, who introduced Mayor Key to the gathering.

Mayor Key's address for the most part was a reiteration of declarations made Tuesday night at the West End meeting. The address was principally an arraignment of the "small group of men masquerading under the name of the chamber of commerce who seek to take the control of the city's government away from the people."

He declared that the framers of the proposed new charter are doing the chamber of commerce an injustice by employing its name.

"Can't Be a Ring,"  
"My opponents called the city democratic executive committee a 'ring of politicians' because it refused to submit the new charter to the people at the polls. The

## EXECUTIVE COMMITTEE IS CHOSEN BY THE PEOPLE EVERY TWO YEARS.

It can't be a ring. Its functions are limited. It holds an election every year, and that is all. It seems that everything that is elected by the people is objected to by that crowd."

Mr. Key said that the framers of the charter, when asking the democratic executive committee to submit it to the polls, had even neglected the courtesy of showing the committee the proposed document. He said he didn't know if the charter as published in newspaper advertisements was a bona fide copy of the document or not.

At this point he asked how many in the audience had read the new charter, and a hand was raised. He then asked how many in the crowd were prepared to vote on it if it were put to a vote, and only one hand was raised.

Emergency Tax.  
"Mr. Goodhart has said that the mayor and council were wrong in levying the emergency tax, but he admits that he himself voted for it. He then asked how many in the audience were prepared to vote on it if it were put to a vote, and only one hand was raised."

Hard Fight Faced BY G. O. P. LEADERS

Washington, July 21.—Three members of the republican senatorial caucus who were conspicuous in the party's presentation of an innocuous platform this time are in for the hardest fights they have had in their political careers.

Senators Smoot, Utah; Wadsworth, New York, and Watson, Indiana, are facing the most formidable kind of opposition. The same day that party's presentation of an innocuous platform this time are in for the hardest fights they have had in their political careers.

G. O. P. Fight for Life.  
In addition to the job of coaching Senator Harding for the coming race, the dominant wing of the G. O. P. will be forced to fight for life in these four senatorial districts and at the same time do everything possible in an effort to whitewash Truman Newberry and preserve for the party his seat in the senate.

The seat of Senator Harding will be held with comparative ease until his successor qualifies on March 4, 1921, and so far there is a fair indication that a democrat will have a chance to succeed the republican nominee for the governor of Ohio.

In the election of an independent candidate, say the doers. From far away Utah come reports that opposition to Senator Reed Smoot is gathering momentum. Smoot is generally supposed to be closer to the interests

of the copper industry than the interests of the people at the polls. The

than any man in the United States senate, and a Washington publication which is growing into wide favor is making a specific crusade against the Mormon member. It was Smoot who wanted to keep all read of campaign contributions in the secret files of the respective committees, but it was Pomerene, democrat of Ohio, who dared him gamble with the camel of corruption.

The prohibitionists and the surfaragists, a rather strong combination in New York state, are openly—irrespective of party—out after the scalp of young Senator James W. Wadsworth, Jr., and the democrats are altogether well pleased

**THEN NOW PRESERVE AND SAVE ME**

YOU REMEMBER the thrill that went through you when you saw the light radiating from every portion of my surface? I would give you a good margin should you desire to dispose of me. But my beauty held you, and you used me for a home that you pointed out to friends as "YETTER'S."

"But look at me today—going to ruin for the want of a protecting coat of paint. Give me the attention I need and I will repay you many times the cost."

"Save the Surface and You Save All."
